

Department of Accountancy

The Department is happy to report that the passing percentage of the College at the T.Y.B.Com. University Examinations has improved from 63% in March 2005 to 87% in March 2011.

With the introduction of the Credit-Based Grading System for F.Y.B.Com. and T.Y.B.Com. Examinations, the focus and strategy of the Department was suitably modified for this year, so that the results attained earlier would be sustained and enhanced. Instead of arranging Programmes by students as in the past, fullest attention was given to all aspects of Internal Assessment such as, constant and repeated Communication with T.Y.B.Com. students to ensure full awareness of the Revised Evaluation System, Scheduling of Class Tests so as to ensure maximum attendance, Designing of Assignments of Ist Term aimed at giving practical exposure to Accounting, Auditing and Taxation.

We conducted Class Tests so as to encourage regular study, early and individual follow up of students to ensure the best performance in the Internal Assessment component and Designing of Assignments of IInd Term aimed at preparing the students for the Year -end Examination.

It is hoped that the above activities of the Department will not only sustain, but also enhance the quality and quantity of the T.Y.B.Com. results in March 2012.

Prof. Nitin R. Wadhvande from our Department completed Refresher Course in Accountancy held at Changu Kana Thakur College, New Panvel organised by UGC's Academic Staff College, University of Mumbai from 2nd November 2011 to 22nd November 2011.
